Registration

Player registration is required to be paid for all Cincinnati Trailblazer Homeschool athletes to be eligible for the 2009/10 winter season. This also gives membership status for all pre-season clinics, strength & conditioning, camps, spring/summer activities including a full membership to the HealthPlex during the summer and fall. Ask for details on how your family can obtain a membership to the HealthPlex at a discounted rate.

Try-outs

Players may try out for a team at their age level or higher. It is at the coaches' discretion that a player swing up to a higher level of play. If this is the case, the player must pay the fees of the higher level of play. It is our goal to build the most competitive teams possible at each age level, and allow the option for a second team to be established if there is a demand. It is our goal to challenge players to be the best they can be, but we do not intend on placing a player on a team that doesn't fit his or her skill level. Try-outs are an on-going process, that is determined during summer and fall pre-season conditioning and practice times. Please talk to Coach Greg Forbin if you have any questions.
